We would like to appear in the LP.PRO-list of sources of supply in the following categories:

1. Laser technology

- Laser beam sources
- Fibre laser
- High-power diode lasers
- Laser components
- Laser system components
- Laser beam protection
- Laser beam delivery systems

2. Laser material processing

- Laser welding
- Laser cutting
- Laser marking
- Mobile laser marking
- Surface processing
- Laser Micromachining
- Materials

3. Laser manufacturing technology

- System periphery of
laser manufacturing technology
- Services of the
laser manufacturing technology
- Control technology

4. Measuring and testing technology

- Laser measuring and testing systems
- Optoelectronic measuring and
analysis systems
- Holography systems and
systems technology
- Industrial image processing

5. Laser accessories

- Laser cooling
- Air pollution control
- Power supply
- Electronic assemblies
- Material

6. Optics

- Production technology of optics
- Optical components
- Optical system technology
- Modulator and deflection systems
- Optical Systems
- Crystals

7. Optoelectronics

- Optoelectronic components
and assemblies

8. Fibre optics

- Optical fibres
- Fibre optic components
- Optical signal monitoring
- Fibre optic measurement technology

9. Laser systems and systems engineering

- Programming systems
- System integration
- System design
- System consulting

10. Laser medical technology

- Laser medical technology
